Dear Mr Baird:

On behalf of the Board of Directors of the Commission on Accreditation of Medical Physics Educational Programs (CAMPEP), I am pleased to inform you that the Residency Program in Therapeutic Medical Physics at Landauer Medical Physics has been granted accreditation through December 31, 2016, with the stipulation that acceptable annual reports are provided documenting the implementation of the reviewers' requirements and recommendations. Due to the unique structure of your program, this accreditation extends to the three sites: Southeastern Regional Medical Center, Carolinas HealthCare System, and the Memorial Hermann Health System that were reviewed. Any additional sites added to your program will require submission of a self-study and a site visit to that facility. Accreditation will automatically be extended through December 31, 2018, upon completion of acceptable annual reports.

Please accept our congratulations on the accreditation of your program. A copy of the Program Review Document is attached, which identifies suggestions for improvement on your program. You are expected to provide annual progress reports on these suggestions and also to provide information regarding any substantive changes in the program.

By separate cover, you will receive a framed certificate acknowledging accreditation of the program. Please contact me if you have any questions or suggestions on the accreditation process.

Sincerely,

Address correspondence to:
